

Payment Instructions

When your order is sent through the online form we will respond and provide further details related to cost of service requested (if required) and instructions for payment.

We currently offer e-transfer or cash payments only to reduce the cost to you for service fees. We will not deliver any orders without advance payment of estimated goods and services. We will advise you of the cost of the service and if you accept you will send the funds and we issue the receipt.

When the payment is made we will send a receipt as soon as possible reflecting receipt of the payment from quickbooks online. Please see the website use agreement on servicesonar.com and privacy details.

If you have any questions please use the contact form and provide us with the best way to reply to you.

Thank you. Small businesses appreciate customers like you.

Best wishes!
